Please see masseylandscaping.com for additional information.

Please contact our office @ 608.833.2559 for 2009-2010 Residential Snow Removal Rates.

Residential Snow Removal Policy

Policy

- We agree to plow all snowfalls over 1.0 inch.** To be determined by the local weather channel and the Massey Operations Manager.
- Sidewalk service is optional** [See rate chart with details]. If you are signed up for sidewalk service, your patience is appreciated. (The city allows 24 hours for city street sidewalk clearing.) Separate crews clear driveways and sidewalks. Crews are dispatched as snow fall tapers off. If you have a special event planned, please notify the office in advance and you will be moved up on the schedule.
- Oversights/mistakes can happen. If it looks as though your drive or walk has been inadvertently missed, please call 833-2559, leave specifics, and we will respond on a timely basis, in the order calls are received.
- Snow removal service is available on a per time basis for current clients who are planning to be out of town. Forty-eight hour advance notice is appreciated. **Homes for sale may prepay for half the season.**
- Client is responsible for all damage caused to and/or by objects hidden in the snow.
- The severity and length of the snowstorm directly affects the starting and completion times on our routes. Windswept areas can often fill in minutes after being cleared. All drives will be cleared as early as physically possible so residents can get out and to work. A second pass will be made to widen and clean up after city plows (this will include your mailbox). Though your driveway may be cleared several times during a 1-4 inch snow event, it is considered "one" clearing.
- We strongly encourage everyone to use driveway reflectors.** They not only help guide the snow plows, but they also help reduce the plow damage to your lawn. Grass disturbed by snow plows will be repaired at no charge in spring (usually April) after the last threat of snow fall. Turned sod looks unsightly but grows back quickly.
- Please note: If reflectors are not placed by the home owner,** Massey's will not assume responsibility for damage to outdoor lighting, curbs, drives, lawn ornaments, benches and shrubs planted too close to the pavement. Rust spots which may occur on pavement, are a result of friction rub-off between plow blade and pavement. This is unavoidable, and Massey's will not assume responsibility.

What's new...stay in the loop!

Explore our new web site! There is always something **magical** happening at Massey's Landscaping!

□ This year, Massey's have **invested** in an all new web design, complete with photo gallery and information at your fingertips!

□ **Get a jump on Spring!** Fall is the perfect time to prune, and **get your name on the list** for a fall/leaf clean up. We recommend: aerate in the fall and dethatch in spring with our four-step nutrient management (fertilizer) program. Let us know how we can help.

□ All snow removal rates have remained the same!

□ **Massey's Landscaping celebrating 20 years** as a **green industry service provider**. Our snow removal contracts are like an insurance policy. We have you covered 24/7. *Thank you for supporting small business!*
